

Introducing our SMILE PROTECTION PROGRAM

Taking care of your smile long-term is the best way to maintain a strong and healthy smile for the rest of your life! With our Smile Protection Program, we can help you do just that!

Protect Your Smile!

We are committed to giving our patients amazing smiles that last.

With our retainer program you get unlimited replacement of your clear overlay retainers for 7 years following your treatment! Bringing you financial savings as well as peace of mind for when accidents happen!

Normally, a single set of replacement clear overlay retainers ranges from \$400-\$500. If you replaced one set per year, it would cost a minimum of **\$2,800** over a 7 year period!

At North Seattle Orthodontics, we want to make it easy and affordable for you to maintain your beautiful smile that you have worked so hard for! For just \$799 you can enroll in our Smile Protection Program which will provide you with replacement clear overlay retainers for the next 7 years. This is truly the best protection for your beautiful smile.

Did you know?

Retainers are critical to maintaining the smile you've invested in. If you don't continue wearing your retainers, your teeth may shift, requiring future orthodontic treatment.

Retainers often get lost, get broken...and even get eaten (yes, dogs love to eat retainers!)

The Smile Protection Program pays for itself with just 2 replacement sets!

Exclusive Benefits for You:

As a participant in our Smile Protection Program, you will automatically receive a duplicate set of retainers at the end of your treatment

Protection to keep your teeth healthy and straight!

Opportunity for significant savings when replacements are needed

Frequently Asked Questions

How many times can I replace my retainer?

You can replace your clear overlay retainers as many times needed within the 7 year period. Please note there will only be 2 sets provided at a time for each replacement occurrence. We want you to **ALWAYS** have a back up set at home!

What forms of payments are accepted?

We accept MasterCard, Visa, FSA, and HSA accounts.

How long should I wait after breaking/losing my retainer to contact you about getting a replacement?

Please don't wait! Call us as soon as you are aware that your retainer has been lost or damaged. Please leave a voicemail if the office is closed, and our team will get back to you as soon as possible!

How do I pay for the program, can I make payments?

Yes! There are 2 payment options to choose from:

- A one time payment of \$799.
- 4 monthly installments of \$199.75 each.

If you are just starting your orthodontic treatment, there may also be the option of adding the cost of the SPP into your overall treatment cost- and the payments would be divided over time into your agreed payment plan- be sure to ask your treatment coordinator if this option is right for you!

Are there any types of loss/damage that aren't covered?

Nope! We will replace your clear overlay retainers (2 sets max at a time) regardless of how they were lost/damaged, no questions asked.

How does the program work?

When you need a retainer replacement, give us a call as soon as possible. We will discuss whether or not a new scan is needed - as well as confirm if you need upper and lower retainers, or which arch if only one is needed. If a new scan is needed, we will simply have you in to the office for a quick appointment, and then schedule a time for you to pick up your new retainers a few days later. Please note, if a new 3D model is needed, we offer 1 complimentary scan. *Please note: There is an additional fee of \$25/arch for each new 3D model needed.*

When I need a new retainer, will I need to have another scan taken at the office?

In some cases, a new in office scan may be necessary. There is an additional \$25 fee per arch.

What happens if I don't wear my retainer?

Once you complete your orthodontic treatment, whether Invisalign or braces - the teeth rely on your retainers to keep them in place.

If you don't wear your retainer, your teeth will likely start to shift back into their old position. This could result in a need for additional orthodontic treatment within 10 years, or even sooner.

Is it worth the money?

The savings speak for themselves with our Smile Protection Program! The program pays for itself with your first 2 replacement sets! It offers the convenience and peace of mind, knowing that you get unlimited replacements of your clear overlay retainer over the course of 7 years without having to worry about paying out of pocket costs each time!
